

Ponheary Ly Foundation (PLF)

Support Wellness for One School: \$1,600

Medical care for one school for one year: \$1,600

PLF is committed to keeping the most vulnerable students healthy. These are generally primary school students coming in from remote villages where they live in primitive conditions without access to medical care. This program includes first aid and hygiene supplies, regular deworming for parasites, and for emergencies, transportation to the nearest children's hospital, 2.5 hours distant. PLF provides well-trained school nurses at three primary schools with more than 850 students.
